

Shiang Tang

- CONTACT INFORMATION** 150 N University St, RM 417
West Lafayette, IN 47907
Email: shiangtang1989@gmail.com
- RESEARCH INTERESTS** Number theory, Galois representations, automorphic forms.
- EDUCATION**
- Ph.D. in Mathematics, University of Utah, 2018.
 - B.S. in Mathematics and Applied Mathematics, Dalian University of Technology, China, 2012.
- EMPLOYMENT**
- Visiting Assistant Professor, Purdue University, 2021–now.
 - J.L.Doob Research Assistant Professor, University of Illinois at Urbana-Champaign, 2018-2021.
- PAPERS AND PREPRINTS**
- *Congruences like Atkin's for the partition function*, joint with Scott Ahlgren and Patrick Allen. In preparation.
 - *Motivic Galois representations valued in spin groups*, Journal de Théorie des Nombres de Bordeaux, Tome 33 (2021) no. 1, pp. 197-221.
 - *Potential automorphy of GSpin_{2n+1} -valued Galois representations*, joint with Stefan Patrikis. Mathematische Zeitschrift. (2021). <https://doi.org/10.1007/s00209-021-02845-0>
 - *Algebraic monodromy groups of G -valued l -adic Galois representations*, Algebra Number theory, Vol.13, No.6, 1353-1394 (2019).
 - *Principal series representations of metaplectic groups*, arXiv:1706.05145 [math.RT].
 - *Action of intertwining operators on pseudospherical K -types*, Pacific Journal of Mathematics, Vol. 286, No. 1, 2017.
- TALKS**
- Invited seminar talks**
- Potential automorphy of GSpin_{2n+1} -valued Galois representations, Automorphic Forms and Representation Theory Seminar, Purdue University, Sep 2021
 - Potential automorphy of GSpin_{2n+1} -valued Galois representations, Number Theory Seminar, University of Illinois at Urbana-Champaign, Mar 2020
 - Full-image p -adic Galois Representations and Galois Deformation Theory, Pop-up Conference in Number Theory, University of Illinois at Chicago, Nov 2018
 - Full-image p -adic Galois Representations and Galois Deformation Theory, Number Theory Seminar, Purdue University, Mar 2018
 - Algebraic Monodromy Groups of Galois Representations, Southwest Jiaotong University, Chengdu, China, May 2017
 - Eisenstein Series and Transfer of Plancherel measures, AMS Western Sectional Meeting, Special Session on Automorphic Forms, Combinatorics and Representation Theory, University of Utah, Apr 2016
 - Action of Intertwining Operators on Pseudo-Spherical K -types, Representation Theory Seminar, University of Utah, Mar 2016
- Talks for general audiences (high school, undergraduates, and young graduates)**
- Bridge to Research Seminar, Purdue University, Nov 2021
 - Undergraduate learning seminar on p -adic analysis, University of Illinois, Spring 2021 (faculty organizer)
 - Undergraduate learning seminar on Lie groups, Lie algebras and Weyl groups, University of Illinois, Spring 2019 (faculty organizer)
 - Continued Fractions and Music Theory, Science Day Workshop for high school students, University of Utah, Nov 2016

- The Secret Life of Continued Fractions, Science Day Workshop for high school students, University of Utah, Nov 2015
- Continued Fractions and Music Theory, Undergraduate colloquium, University of Utah, Nov 2015
- Designing a Super-Variety Necklace and Polynomials over Galois Fields, Undergraduate colloquium, University of Utah, Nov 2014

TEACHING
EXPERIENCE

Purdue University (Instructor of record, 2021–now)

- Ordinary Differential Equations

University of Illinois at Urbana-Champaign (Instructor of record, 2018–2021)

- Graduate: Algebraic Number Theory
- Upper division: Elementary Theory of Numbers, Applied Complex Variables, Introduction to Abstract Algebra, Abstract Linear Algebra
- Lower division: Fundamental Mathematics, Discrete Mathematics

University of Utah (Instructor of record, 2013–2018)

- Upper division: Foundations of Analysis I, Linear Algebra
- Lower division: Trigonometry, Calculus I–III, Business Calculus, Intermediate Algebra, College Algebra

MENTORSHIP

Graduate level: Supervised reading on Galois representations. Students: Johnson Tan and Robert Dicks, Fall 2020.

Undergraduate level:

- Finite Reflection Groups and Related Topics, an Illinois Geometry Lab undergraduate research project in Spring 2019. Students: Xinjian Di, Xinghan Chen and Patrick Feltes.
- Ruzhang Yang, recipient of an honorable mention in the 2020 Putnam Math Competition.
- P-adic Numbers and Ultrametric Calculus, an Illinois Geometry Lab undergraduate research project in Spring 2021. Students: Jay Reiter, Napoleon Wang, Hyunjin Yi and Xiaojian Li.

GRANTS

- NSF grant 1902155, 2020–2022.

SERVICE

- Journal referee: Journal de Théorie des Nombres de Bordeaux and Journal of Number Theory.
- Committee member of a Ph.D. oral comprehensive exam
- Committee member of a Ph.D. written comprehensive exam

CONFERENCES

- Spring school towards a mod p Langlands correspondence (virtual), Apr 2021.
- Workshop on Serre weights conjectures and geometry of Shimura varieties (virtual), Sep 2020
- Arizona Winter School: Nonabelian Chabauty, Tucson, Arizona, Mar 2020
- Hawaii Number Theory 2019, University of Hawaii at Manoa, Hawaii, Mar 2019
- Pop-up Conference in Number Theory, University of Illinois at Chicago, Nov 2018
- Workshop on Galois Representations, University of Heidelberg, Germany, Jul 2018
- Arizona Winter School: Iwasawa Theory, Tucson, Arizona, Mar 2018
- Atlas of Lie groups, University of Utah, Jul 2017
- Arizona Winter School: Perfectoid Spaces, Tucson, Arizona, Mar 2017
- Connecticut Summer School in Number Theory, Storrs, Connecticut, Aug 2016
- L-functions and Arithmetic: A conference in honor of the 60th birthday of Karl Rubin. Harvard University, June 2016
- AMS Western Sectional Meeting: Special Session for Automorphic Forms, Combinatorics and Representation Theory, University of Utah, Apr 2016
